### Using Type 2 Handheld Cables (AL-70265) or (AL-70608) with 3130/3140/3330/3340 Laser Systems

Both AL-70265 cable and AL-70608 (handheld with cable) have a Type 2 cable with quick disconnect on the Handheld side and 6-Pin male connector on supply unit side. Laser systems 3130/3140/3330/3340 have an 8-pin socket on the supply unit and therefore an adapter is necessary to connect the cable to the supply unit.

The adapter necessary is AL-74764 (6-pin female to 8-pin male).
